ATTENDANCE

Those present included: Trustees: Wilbur Thornton, chairman; Randy Winston, vice chair; Randy Grassham, treasurer; Darren Garrison, secretary; Phil Davis, member Marion Tibbs, member; and college administrators: Dr. Devin Stephenson, president; Dr. Wesley Payne, vice president for learning; Marcia Fields, interim coordinator for student success; Charlotte Eubank, chief financial officer; and Heather Kilbreath, recording secretary.

The minutes of the meetings on December 14, 2011, were unanimously approved as presented on a motion by Trustee Winston and second by Trustee Tibbs.

Charlotte Eubank reported all budget amounts reflect adjustments approved by the Board at the December 2011 meeting. The college is 50% into the fiscal year and has realized 76% of budgeted revenue. This is largely due to increased enrollment, with 100% of tuition and fees revenue already being recognized. Revenue from auxiliary enterprises is also slightly ahead of expected due to bookstore rental revenue related to the earlier registrations. Non-operating revenue is only at 13% because property taxes will primarily be collected after December when property tax collections are at their peak. As for expenses, the college is 50% into the fiscal year and has spent 51% of its budgeted expenses. Grant Expense is higher, at 85%, because most of its grants are on a reimbursement basis. Year-to-date the college has net assets of $5,236,847. The summary of checks issued for December 2011 was $1,094,981.31. President Stephenson stated he will come back with additional budget adjustments that are directly related to the college’s strategic plan later in the fiscal year. The December 2011 financial report was unanimously approved on a motion by Trustee Winston and a second by Trustee Davis.

CONSIDERATION OF COLLEGE FINANCIAL REPORT

PRESIDENT’S REPORT

DOCUMENT IMAGING

Will Dougherty reported Student Services began integrating document imaging in office operations in March 2011. Enrollment Services began using the system in Fall 2011. Challenges to the old
paper record retention system were lost paperwork and cumbersome paper workflow. ImageNow was the software the college chose, through an open bid process, to solve these issues. The software uses secure encryption and access is assigned to employees on a “need to know” basis. Accessibility for documents is immediate and has well-defined workflows.

Dr. Wesley Payne reported Convocation was held on Monday, January 9, 2012, with the theme of “We’re all in this together.” Employees were updated on overall college landscape, capital campaign, Learning division, Student Success division, Financial Services division, planning and budgeting, and the college’s wellness program.

Marcia Fields reported enrollment numbers for Winter 2012 and Spring 2012.

Mrs. Fields reported this is the first time that Spring enrollment numbers are greater than Fall enrollment numbers. Trustee Tibbs asked if Cape Girardeau facility was at capacity regarding space and Dr. Wesley Payne replied that is part of the center’s issue.

Bill Hampton reported the Dexter Center reached over 300 students due largely to outreach promotions and marketing to students in that general region. In Fall 2011, Dexter had 24 classes and in Spring 2012, they have 56 classes. The new science lab is fully equipped and functioning at this time – the lab allows the center to offer science classes such as biology, physics, anatomy, and
physiology. The college is grateful to Dexter’s Chamber of Commerce, Stoddard County IDA, and Citizen’s for Stoddard County for their financial support for the science lab and for their overall support of the Dexter Center and Three Rivers College.

President Stephenson invited the trustees to the Nursing and Allied Health Center Open House on January 26, 2012, from 4 p.m. to 6 p.m. with remarks at 5 p.m. This event celebrates the one year anniversary of the South Campus and partnership with Poplar Bluff Regional Medical Center. There will be tours of the facility including the new Physical Therapist Assistant Program lab.

Emily Parks reported the capital campaign has officially kicked off. The Enlistment Committees for Poplar Bluff and Sikeston have both met and selected committee leaders. Dr. Fred Caldwell, of Poplar Bluff, and Richard Montgomery, of Sikeston, helped coordinate the Enlistment Committee meetings. For the family campaign, 78% of employees have pledged to the campaign.

Emily Parks reported Governor Nixon has proposed a $16.9 million cut to community college state allocations. This topic was discussed at the 3rd Annual Legislative Brunch at Three Rivers College on December 16. President Stephenson updated legislators on Three Rivers’ and outlined the college’s legislative agenda. State Senate President Pro Tem Rob Mayer spoke on the challenges facing Missouri. Senator Mayer stated funding for higher education, especially for community colleges, must be a priority. State Representative Todd Richardson was honored as Three Rivers’ Legislator of the Year for his help with Three Rivers but also with MCCCA and all community colleges in Missouri.

Will Durden reported that over 2,200 people attended the basketball game at the Black River Coliseum on January 7. Three Rivers College partnered with Black River Coliseum for a day of basketball and it was very successful. The Lady Raiders and Raiders played Mineral Area College with halftime activities included a chicken wing eating contest and a karate demonstration.

Mr. Durden also reported compliance and eligibility are getting better with the “checks and balances.” The basketball programs passed their audits and baseball/softball audits will occur soon.

Mr. Durden reported the men and women’s basketball seasons are midway through and both are struggling in regional play. The college has finalized the contract for Ray Clinton Park for the college’s rodeo team practice facility. Their first rodeo event will be the last week in February in Arkansas. Baseball and softball are currently signing players and getting prepared to start their spring seasons.
Dr. Wesley Payne reported the Ag Expo begins on January 20 from 1 p.m. to 8 p.m. and on January 21 from 9 a.m. to 3 p.m. at the Black River Coliseum. Admission is free and open to the public. The two-day event is sponsored by Butler County University of Missouri Extension Council and the Three Rivers Ag Club. The Three Rivers College Board of Trustees is sponsoring the breakfast for vendors on January 21 at 8 a.m. in the BRC hospitality room.

Marcia Fields reported military veterans will be honored at the January 28 Raiders game at the Bess Activity Center. The game starts at 7 p.m. and admission is free to all veterans. There will be a traveling museum on display in the Bess Conference Room. Veterans Appreciation Night will be sponsored by Three Rivers College, Three Rivers Student Veterans Association, Vietnam Veterans of America, and John J. Pershing VA Medical Center.

Dr. Wesley Payne announced the next Center Stage production is *Jerry Finnegan’s Sister* and performances are February 11 at 7 p.m., February 12 at 7 p.m., and February 14 at 6 p.m. Tickets for the shows on February 11 and 12 are $10 for adults and $5 for students, seniors, and children. The show for February 14 is a dinner theater with tickets $25 per person or $40 per couple.

Dr. Wesley Payne announced the next Patrons of the Arts performances are *Puss in Boots*, underwritten by Southern Bank, on January 21 at 3 p.m. and 7 p.m. and *Othello* on February 21 at 7 p.m. Tickets for both performances are $10 and will take place Tinnin Fine Arts Center.

President Stephenson announced the Administrative Planning Retreat will be on February 3, 2012, at The Landing in Van Buren. All trustees are invited to attend. Topics covered during this meeting will be the college’s strategic plan, master plan, budgeting, learning outcomes, and preparation for Higher Learning Commission visit.

Steve Austin of Kraft, Miles, & Tatum, the college auditors, presented the FY11 College Audit. Mr. Austin reported auditors “did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.” Furthermore, Kraft, Miles, & Tatum “did not identify any
deficiencies in internal control over compliance that we consider to be material weaknesses.” Finally, Mr. Austin stated the firm considers Three Rivers College to be a “low-risk auditee.”

Trustee Winston asked about housing financials; and Mr. Austin replied those financials were improving each year. It was noted that the Foundation has a different reporting year than the college, therefore their audit report was different from the college’s. Dr. Stephenson thanked the auditors for their service and stated how pleased he was with the audit report.

Trustee Winston made a motion to approve the FY11 college audit. The motion was seconded by Trustee Tibbs and given unanimous approval.

President Stephenson opened and led discussion about his recommendation to renovate the Rutland Library and the creation of the Academic Resource Commons. The lower floor east quadrant will contain the Rutland Library circulation desk, library staff offices and work room, student study and lounge area, public computing center, collaboratory learning rooms, and the education resource room. The lower floor west quadrant will contain the Rutland Library stacks. Between the two lower quadrants will be a coffee and pastry shop. The upper floor east quadrant will contain the testing center, multipurpose classroom, two collaboration rooms, and a student study lounge. The upper floor west quadrant will contain Student Support Services (TRIO) and the tutoring/learning center. Within this space there are six (6) collaboratory learning rooms, and 40 individual computer stations. Between the two upper quadrants are new restrooms and a staff break room. As reflected in the FY11 College Audit Report, the financial position of the college has strengthened to the point that renovation funds are available for this priority project. The project construction estimate is $1.5 million.

Ben Traxel discussed the continuity between the renovation of this building with the proposed new buildings that will be built from capital campaign. The college administration is attempting to establish an architectural standard for the entire campus.

I, Randy Winston, make a motion to authorize Dr. Devin Stephenson to proceed with the renovation of the Rutland Library building into a new Academic Resource Commons by entering into negotiations with Dille & Traxel, LLC for its design and construction drawings. Furthermore, once drawings are complete, the project is to then be bid to general contractors on the open market for its construction. This motion is based on the drawings, information, and proposed budget presented by Dr. Devin Stephenson. The motion was unanimously approved with a second by Trustee Tibbs.

President Stephenson announced that the Emerson Corporation has donated the former Emerson Electric plant in Kennett to the college. This is a gift of more than $1 million and is the biggest gift ever given by a single donor outside the college’s taxing district. This gift will help the college expand its capacity to serve Kennett and the surrounding area which has experienced increasing demand for services for the betterment of students and the citizens of Dunklin county and surrounding service area.

President Stephenson gave an update on Missouri’s economy and Governor Nixon’s current FY13 budget proposal. At this time, higher education is expected to take a 7.8% cut in state appropriations. The impact for this cut on Three Rivers is approximately $330,000. Since 2009, the college has lost $539,410 in state support. The college’s most significant challenges are reductions in state funding, growing pains, maintaining momentum, avoiding distractions, remaining cohesive, thinking entrepreneurially, viewing the college holistically, and focusing on the future.

Dr. Stephenson distributed handouts for board consideration and led discussion on the matter, along with Charlotte Eubank. Discussion followed about budget challenges and clarifying the reason for increased athletic insurance premiums. Eighty percent (80%) of Three Rivers’ students receive Pell Grants and other financial aid. Following further discussion, a vote was tabled until
the next board meeting in March. It was discussed to have this meeting on March 5, 2012, at 12 noon.

Bud Joyner, Director of Career Education and Workforce Development, gave an update on the workforce development department. Mr. Joyner reported Governor Nixon praised Three Rivers’ Workforce Development efforts during a recent tour of Sikeston’s Tetra Pak in January 2012. The department has three training consortia (Poplar Bluff Training Group, Heart of the Ozarks Training Consortium, and Bootheel Regional Training Group) that participate in Missouri’s Customized Training program. Courses provided through this program are computer skills, quality skills, technical skills, leadership skills, and safety skills. The department covers the college’s 15-county service area. Currently there are two New Jobs Training Programs (NJTP) with Orgill for $454,000 and with Noranda for $1.5 million. Mr. Joyner is working on a third NJTP with a company bringing 300 jobs from Mexico to Missouri for a total of $300,000. Mr. Joyner is also project manager for the Delta Regional Authority grant which is funding a mobile skills training unit.

Recently, Mr. Joyner had a meeting with Rep. Todd Richardson to ask for his support in retaining Customized Training funds in the state budget and how important the state funding is to the college and industries in its service area.

“Do you (Ben Ressel) solemnly affirm that you will support the Constitution of the United States and the Constitution of Missouri, and that you will faithfully and impartially discharge the duties of college trustee in and for the Three Rivers Community College District, Sub-District No. 1, State of Missouri, to the best of your ability, according to law, so help you God.

Do you (Randy Grassham) solemnly affirm that you will support the Constitution of the United States and the Constitution of Missouri, and that you will faithfully and impartially discharge the duties of college trustee in and for the Three Rivers Community College District, Sub-District No. 2, State of Missouri, to the best of your ability, according to law, so help you God.
After the new board of trustee members were sworn in, they took their predecessors’ seats.

Outgoing Trustee Marion Tibbs made the following statement: “I can only repeat what I’ve said many times before; the success of my family began at Three Rivers. My wife was the first in her family to graduate from any college and it was at 40. She went on to get her master’s degree. My daughter has her masters, and started at Three Rivers at 30. Neither would have received a college education without the close proximity and availability of Three Rivers. My son, my daughter-in-law, my granddaughter, and I all graduated from Three Rivers. Then continued our education at Southeast. Next year, another granddaughter will start at Three Rivers. I don’t say this to brag about my family’s education, I say it to brag about Three Rivers and the availability of education in Southeast Missouri. We live in the poorest area of the state and it’s our service area. It’s our responsibility to bring this area out of poverty with the only tool that can make it happen – education. A great work has been started at Three Rivers, and I feel we have made more progress in the past 4 years than in the first 40 in bringing education to all the Bootheel. I beseech you, don’t stop now. Our greatness, our success, and the success of our students is dependent on you. Don’t let them down. I thank the people of Butler County for giving me the opportunity to serve this past 6 years and I look forward to the continued growth and success of Three Rivers under the new board’s leadership.

Ripley County.

Dr. Stephenson gave an update on the capital campaign.

Dr. Stephenson distributed an updated college organizational chart
and briefly described each division’s overall functional
responsibility. The chart was based solely upon function and did
not address any possible administrative reorganization or future
personnel reassignments. Dr. Stephenson presented his FY13
Planning Priorities and noted that the priorities are connected to the
college’s strategic plan and proposed FY13 budget. The president’s
FY13 Planning Priorities for Three Rivers College are: 1) assure the
college remains focused on student success; 2) promote a culture of
continuous improvement and innovation; 3) insist on the
demonstration of excellence in all the college does; 4) assure that
decisions made are data-informed; 5) manage finances with
integrity and comply with laws and regulations; 6) continue
building partnerships that advance the college mission and
economic and workforce development; and 7) assure institutional
leadership and active participation in the college’s capital
campaign. Dr. Stephenson led discussion about the State of
Missouri’s budget outlook for FY13. Dr. Stephenson led discussion

Dr. Stephenson remarked that accreditation is critical for the college in FY14, and accreditation is incorporated into the FY13 planning priorities and budget. College administration has involved a broad spectrum of personnel in preparation for the reaffirmation visit and it is the administration’s intention for the accreditation process to become a part of the college culture. The college is focused on academic support, assessment, advancement/improvements, accessibility, and taking appropriate and decisive action to fulfill our mission and vision.

Salary increases and cost of living adjustments will be

A motion was made by Trustee Davis to enter into executive session to discuss personnel, property and legal matters, permissible under guidelines of Missouri Rev. Statute Section 710.021.1 Legal – legal actions, causes of action or litigation involving a public
governmental body and confidential and privileged communications between a public governmental body and its attorney; Section 610.021.2 – Real Estate – Leasing, purchase or sale of real estate by a public governmental body where public knowledge of the transaction might adversely affect the legal consideration therefore; Section 610.021.3 – Personnel – Hiring, firing, disciplining or promoting of particular employees by a public governmental body when personal information about the employee is discussed or recorded.

The motion to enter into executive session was seconded by Trustee Grassham. The Board was polled. The vote was as follows: Trustee Grassham, yes; Trustee Thornton, yes; Trustee Davis, yes; Trustee Garrison, yes; Trustee Ressel, yes; and Trustee Winston, yes.

Following the executive session, Trustee Garrison moved to enter into the regular board meeting; Trustee Ressel seconded the motion. The Board was polled and the vote was as follows: Trustee Grassham, yes; Trustee Thornton, yes; Trustee Davis, yes; Trustee Garrison, yes; Trustee Ressel, yes; and Trustee Winston, yes.

Chairman Winston read the following statement and made a motion for Three Rivers Community College to disassociate with the Three Rivers Community College Foundation.

“Before I share my thoughts with this Board regarding the Three Rivers College Foundation, I want to preface them with my acknowledgement that the Foundation has, for many years, been a powerful and positive force for Three Rivers College. I want to express my appreciation for those prominent and faithful Board members who have tirelessly served and faithfully preserved the mission and goals for which it was originally founded.

However, it has become obvious to me over the past two years that the original mission and goals of the Foundation have become distorted, and I believe to a great extent abandoned by its leadership. We have all witnessed the deterioration of the once positive relationship between our two bodies to a point that I have regretfully concluded that a continued association between us is no longer in the best interest of our institution, our students and faculty, and the community we serve.

I do not know whether the Foundation Board is supportive of the conduct and actions of its leadership, or if they are even aware of the situation we find ourselves in today. It is not my purpose to personally criticize the individual members of the Foundation Board. Nevertheless, whether it is with their knowledge and support, or out of their lack of knowledge, I feel strongly that our Board has lost the trust of and confidence in the Foundation’s ability and desire to serve our institution.

I don’t think it is necessary to chronicle all of the problems and disappointments that we as the College Board of Trustees have experienced and endured these past two years. We are all aware of the disparaging and threatening comments about the Trustees and the administration which have been made by the Foundation’s Executive Director.

We are all aware of the Foundation Executive Director’s refusal, despite numerous requests from us, to provide information and data regarding the Foundation and its operations and activities which are vital to the College. Specifically, we have all experienced the frustration and dismay that the Executive Director has refused to provide critical information regarding endowed scholarship fund balances, scholarship awards, or any reports or statements of any kind for the past two years. There has been no communication or coordination in the awarding of scholarships from Foundation funds for the past two years. Our repeated requests for financial statements and reports of the Foundation have been ignored. We are all aware that we, as a college, are responsible for accurately reporting the actions of all of the recognized “component units” of the college. Without this information which our administration and even our legal counsel has repeatedly, without success, attempted to secure, our entire financial aid program has been placed at risk. I believe that the Executive Director’s refusal or inability to provide this information reflects either a total disregard for the College’s requirements in this regard, or at the very least a lack of understanding of the concept of “component units.” Simply put, I have personally come to the conclusion that the Executive Director’s attitude is that what we do is none of the College’s business.” In contrast, our other “component units” have operated in the spirit of complete transparency and cooperation.

We are also all aware of the Executive Director’s unfortunate and frankly insulting attitude and position regarding the E.K. Porter building on our campus. Although none of us were on this board at that time, a review of the old minutes of this Board and discussions with those who were involved at that time seem to confirm that it was the donor’s understanding that the gift was being
made to the College. In an attempt to secure the most building for the money, a plan was devised that included the College deed for land to the Foundation and the building being constructed on that land under the supervision of the Foundation, and it was conveyed back to the College. This plan was utilized in an agreement with Pullar Bluff Industries when an expansion to the Hess Activity Center was undertaken. Unlike that arrangement, however, when the Potter Building was completed, it was never conveyed from the Foundation to the College. When the State Auditor filed her report in 2010, we were criticized for expending College funds for expenses on a building that we had no legal right to occupy. When this Board requested that the property be conveyed back to the College, the Foundation refused, claiming that it was never their intention to convey the building and property back to the College, and that the Foundation needed to keep it so they could borrow money against it. When we requested that the Foundation at least enter into a long term lease of the property to the College in order to satisfy the State Auditor, the Executive Director again refused, stating that she was "in the process of compiling data on the fair market value" of the space we were occupying, and that she would be submitting a formal demand for rent payments. At that time, the Executive Director made a public threat that the Foundation was considering "evicting" the College from the building. To this day, no accommodation has been offered by the Executive Director to resolve this matter, and the College remains out of compliance with the recommendations of the State Auditor, and the donation of a citizen who thought she was donating a building to the College. As we all know, this issue is further exacerbated by the fact that the building is in need of long term maintenance, including roof leaks, which the Foundation has failed to undertake. Even when the College undertook the minor maintenance on its own, some interior painting, the Executive Director ordered our employee to "cease and desist".

It is my belief that this Board and administration has made every possible effort to resolve these many problems and to try to restore a positive working relationship with the Foundation. Various members of our Board have attempted to engage positive dialogue. I personally participated in an informal meeting. Unfortunately, in my view, these many efforts have not only been rebuffed, but I believe have actually resulted in an even more hostile attitude from the Foundation's Executive Director.

Based upon these regrettable circumstances, it is my opinion that this Board has no alternative but to sever all ties with the Three Rivers College Foundation, and urge the Foundation to disband considering the fact that it is no longer serving the purpose for which it was created.

**THEREFORE, MOVE** that the Three Rivers College Board of Trustees officially disassociate itself from the Three Rivers College Foundation, and from any support that this Board has formerly received from or given to the Foundation. I further move that our administration take appropriate and necessary actions to notify the faculty and students of the College of this action, as well as the community we serve of this action.

I ask for a **SECOND** to my motion and for a discussion on its merits.

Chairman Winston stated he appreciated the transparency with which the Three Rivers Endowment Trust operated and their willingness to cooperatively work with the college on scholarships and maintaining Title IV compliance.

The motion was seconded by Trustee Garrison. By majority vote, the motion was approved as presented. The Board was polled and the vote was as follows: Trustee Grassham, yes; Trustee Thornton, yes; Trustee Davis, yes; Trustee Garrison, yes; Trustee Ressel, no; and Trustee Winston, yes.

There being no further business, the board unanimously approved to adjourn the meeting at 2:57 p.m. on a motion by Trustee Garrison and a second by Trustee Ressel.

Charlotte Eubank reported the college’s revenue and expenses as of July 31, 2012. The college is 8% into the fiscal year and has recognized 31% of budgeted revenue. Tuition and Fees are at 51% and represent half of Summer 2012 enrollment as of July 31, 2012. Auxiliary Enterprises revenue is at 26% and includes a portion of summer and fall. This spending pattern is on target as the college approaches the beginning of the fall semester in August.

Mrs. Eubank noted the majority of revenue is recognized at the beginning of semesters as students enroll, while most expenses tend to be incurred relatively even each month primarily due to the college’s payroll. This results in an increase in Net Assets in the early months of the semester. As the semester progresses and expenses are incurred, the Change in Net Assets will decrease.

There was no President’s Report.
Greg Bricker and Mark Grimm presented the Housing Bond recap. The college received an A+ rating from Standard & Poor’s for our first bond rating. Discussed Page 2 of the refinancing analysis of Series 2004 Leasehold Refunding Revenue Bonds regarding the call option to pay bond early. Mark Grimm explained the insertions of final pricing amounts are the only changes to the resolution earlier distributed to the Trustees.

He recommended Charlotte Eubank be named as Bond Compliance officer and requested a resolution authorizing Ms. Eubank to fill this position. This resolution will be presented for vote at the next scheduled Board Meeting.

Greg Bricker led discussion on Phase 2 of the bond issue regarding major gifts campaign for projects in Sikeston and Poplar Bluff. No decision has been made on the Kennett campus at this time. Mr. Bricker explained that most bond issues are not associated with a major gifts campaign. He inquired about donors desiring to donate over multiple years vs. one time.

Emily Parks addressed the Board of Trustees regarding lead gifts campaign and solicitation phase of major gifts. Solicitors need to know the details in order for them to share the same message with potential donors.

Mr. Bricker suggested a meeting with Board of Trustees, TRET & Clements to synchronize the message and plan. Emily Parks stated person/company buying bonds without charitable cash donation will not have naming rights.

Discussion regarding the need for employees to participate to earn deductible. Trustee Davis made the motion to approve, second by Trustee Winston. Unanimously approved.

Dr. Angela Totty led the discussion about the Athletic Insurance. Prior to 2010, the college paid all medical expenses for the athletes. 2010 was the first year the college carried Athletic Injury insurance. 2011 the premiums rose due to our historical experience rates. We expect that the premiums for 2013 will increase based on the expense in 2012. Estimates are around $100,000. Dr. Totty noted that there are few companies that underwrite Athletic Sports Injury policies and our current broker works with the national companies at each renewal period. Janine Heath explained that we are expecting to start the bidding process in October and that we will include local agencies in this process.

Trustees Ben Ressel and Phil Davis stated they think the college should provide insurance for the athletes.

Janine Heath explained that in the absence of primary insurance held by the athletes, our secondary policy will convert to primary insurance.

Dr. Totty stated that there should be a personal responsibility of the athlete to obtain the primary coverage not only for athletic injury but for overall wellness during their attendance at the college.

Local providers will be contacted prior to the October Board meeting for solicitation of quotes. Further discussion was tabled until the October Board Meeting.

Dr. Payne led the discussion regarding Policy SP 2180 Military Duty. Motion was made by Trustee Davis and seconded by Trustee Thornton to adopt as presented. Motion was passed unanimously.

(Special Session)

A Special meeting of the Board of Trustees was held in the Board Room of the Tinnin Fine Arts Center on the main campus in Poplar Bluff, Missouri, on Thursday, September 27, 2012 at 10:06 a.m.

Those present included: Trustees: Randy Winston, chairman; Randy Grassham, secretary; Phil Davis, member; Darren Garrison, member and Ben Ressel, treasurer; attended via conference call; and college administrators: Dr. Devin Stephenson, president; Dr. Wesley Payne, vice president for learning; Dr. Angela Totty, vice president for student success; and Janine Heath, recording secretary. Guest(s): Emily Parks; Hillary Speer; Scott Matthews; Alan Brooks; Doug Libla; Marty Michael and Brad Smith (attending via conference call) all with the TRET Board.

Chairman Winston called the meeting to order. He welcomed the representatives of the TRET.

Emily Parks presented a draft of the “Donor Secured Bond Sale” brochure that the Endowment Trust will use during the solicitation of donations for the major gifts campaign.

Scott Mathews asked if in point #12: “Cash, cashier’s check, and cleared personal check are the only acceptable methods of payment” we add stock donations. This was met with affirmative responses from all present.

Emily Parks stated that there are three points that need to be clarified prior to the solicitation process starting.

1. What is the minimum amount of donations that the Trustees require to proceed with the Eastern Campus and the Poplar Bluff Campus projects?
2. Determine how the donations and bond purchase amounts should correlate. Example: Should we require a dollar for dollar donation to bond purchase; or should we require that a donor contribute $0.50 for each dollar he/she wants to purchase in bonds, or is there another correlation that the Trustees would consider?
3. Do the Trustees require having the cash in the bank now for the purpose of immediately obtaining a return on the investment, or do we allow donors to pledge donations to span over a period of time?

Discussion between the Board of Trustees and TRET followed.
Item #1:

After discussion it was determined that we proceed with securing $5.4 million in donations, matching the bond offering of $5.4 million.

Item #2:

It was agreed that the issue is not as much of a correlation as the bottom line of donations – the threshold amount. It has been projected that the college could service the debt on the bonds without donations but we need to maximize the donations in order to produce a perpetual return on the investment that will be distributed to the college annually for administrative and management costs.

It was noted that in the presentations made to potential donors, the donation amount would be equal to the amount of bonds available to purchase. The consensus was that we would continue to present to donors that the donation amount would be a dollar for dollar match with the purchase of the bonds.

Item #3:

There was discussion on pledges as to whether or not they were considered legal documents and, if so, would they be collateral that banks would be willing to purchase in order to have the funds available now rather than waiting the 3 to 5 year period for the pledges to materialize.

The consensus was that pledges were legal documents and that it would be acceptable to have donors pledge their donations over multiple years. Emily Parks was directed to have legal counsel draw up the appropriate document for the pledges in order for them to be legal and binding.

There was further discussion regarding the scope of the project. A question was asked whether or not a donor could designate the Event Center and be eligible to purchase the bonds. Consensus was no. If donors have questions regarding the Event Center the explanation would be that the academic need (and the classroom facilities are revenue producing projects) is greater at this time but there is an additional bond issue that is intended to raise the funds necessary for the Event Center. The members of the TRET board were comfortable with this.

A motion was made by Trustee Davis with a second by Trustee Grassham to proceed with the dollar for dollar matching funds on the $5.4 million bond issue, allowing pledges up to 5 years to have equal eligibility to purchase matching bonds. The Board was polled. The vote was as follows: Trustee Grassham, yes; Trustee Winston, yes; Trustee Ressel, yes; Trustee Davis, yes; Trustee Thornton, absent;
A motion was made by Trustee Davis to enter into executive session to discuss personnel, property and legal matters, permissible under guidelines of Missouri Rev. Statute Section 710.021.1 Legal – legal actions, causes of action or litigation involving a public governmental body and confidential and privileged communications between a public governmental body and its attorney; Section 610.021.2 – Real Estate – Leasing, purchase or sale of real estate by a public governmental body where public knowledge of the transaction might adversely affect the legal consideration therefore; Section 610.021.3 – Personnel – Hiring, firing, disciplining or promoting of particular employees by a public governmental body when personal information about the employee is discussed or recorded.

The motion to enter into executive session was made by Trustee Ressel and seconded by Trustee Davis. The Board was polled. The vote was as follows: Trustee Grassham, yes; Trustee Thornton, absent; Trustee Davis, yes; Trustee Garrison, absent; Trustee Ressel, yes; and Trustee Winston, yes.

Following the executive session, Trustee Davis moved to enter into the regular board meeting; Trustee Grassham seconded the motion. The Board was polled and the vote was as follows: Trustee Grassham, yes; Trustee Thornton, absent; Trustee Davis, yes; Trustee Garrison, absent; Trustee Ressel, yes; and Trustee Winston, yes.

There being no further business, the board unanimously approved to adjourn the meeting at 11:34 a.m. on a motion by Trustee Davis and a second by Trustee Grassham.

Charlotte Eubank reported the college’s revenue and expenses as of September 30, 2012. The college is 25% into the fiscal year and has recognized 44% of budgeted revenue. Increased revenues are due to the increase in enrollment. Auxiliary Enterprises revenue is also up due to the increased enrollment. The college is at 25% in the fiscal year for expenses and has obligated 22% of the budgeted expenses.

The summary of checks issued in September 2012 was $4,054,313.25. The September 2012 financial report was unanimously approved on a motion by Trustee Davis and a second by Trustee Ressel.

Dr. Stephenson introduced Cale Emmett, the Rodeo Coach and the rodeo team. Reviewed the standing of the team at the end of the second rodeo. Men’s team is 8th and women’s team is 5th in the Ozarks Region of the NIRA. The standings are tight at the beginning of the season. There is only 100 points separating the men’s team from 3rd place.

Discussed the Raider Madness event. Dr. Totty was the master of ceremonies. Dr. Stephenson thanked all of the coaches for their work.
Dr. Stephenson attended the opening of the Public computing Center in Piedmont. In attendance was Jim Matthews, Robert Gayle, Blane Keel; Paul D'Amico, Trustee Darren Garrison and several other leaders in the community. It was a good visit with the residents. There is strong support for the center in the Piedmont area.

There have been several parades this fall within the district and Three Rivers College has been well represented at all of them.

Dr. Stephenson announced that Trustee Thornton is the new Chair of the MCCA Trustees Council. He has been selected to head the legislative initiative for the MCCA Trustees Council for the upcoming legislative session.

The college had record membership enrollment in MCCA this year with 95 faculty/staff members joining. There was a MCCA awareness day on campus on September 28. All members wore the official t-shirt of MCCA.

Dr. Totty reviewed the Orientation Survey that was given to all incoming freshmen. Cost and location are both the number one and two reasons that our students have indicated they chose Three Rivers. As has been discussed previously, many students in Southeast Missouri are geographically bound. Having our centers located throughout the service area and increasing our online services has made a positive difference. Recruitment was the third with Financial Aid at fourth reasons student chose Three Rivers college.

Charlotte Eubank presented the Resolution approving a tax-exempt financing compliance policy. Greg Bricker had recommended at our September 19, 2012 meeting that Charlotte Eubank be named as Bond Compliance Officer.

Motion was made by Trustee Ressel and seconded by Trustee Garrison to adopt the resolution naming Charlotte Eubank as the Bond Compliance Officer. Motion was unanimously approved.

Dr. Totty updated the Board on the progress of obtaining bids for Athletic Injury Insurance. Insurance professionals have told us that to adequately quote the policy, they want to be as close to the renewal date as possible. We did receive a draft quote from Gallagher Koster of $99,000 with a $1000 deductible. Our representative with Gallagher Koster is recommending consideration of a higher deductible; however, we will make that determination when all the quotes have been submitted. Trustee Thornton gave information about Moberly Area College’s Athletic Insurance. The college will contact Moberly’s company to get a quote. We have contacted three local brokers to request quotes from them. We will continue to update the Board as to the information that we receive. We anticipate a proposal to the Board at the December meeting.

Charlotte Eubank presented the 2013 Athletic Transportation Bids. It is the recommendation of the Administration to contract with Four Winds based on pricing, location and input from our athletic team coaches. The coaches were surveyed and responded that their choice would be Four Winds due to the extraordinary service provided by the bus drivers. Trustee Thornton recommended Four Winds due to the drivers as well. He stated that the drivers are engaged with the athletes and become almost part of the team. Trustee Winston made the motion to approve, second by Trustee Ressel. Unanimously approved.

Discussion on the vote that Trustee Winston should cast in the November 6, 2012 election for the tax increase funding the Poplar Bluff Regional Transportation Development. There are differing
opinions in the community as to whether or not the TDD should be passed. Some businesses in the taxing district feel it would place them in an unfair position to compete with like businesses not in the taxing district. Trustee Winston stated that it would be difficult to ask for money to fund our new entrance if we vote no to the tax increase. The Chamber of Commerce decided at their meeting on October 9, 2012 to unanimously cast a yes vote. Trustee Winston made the motion to vote yes to the tax increase, it was seconded by Trustee Garrison. The Board was polled and the vote was as follows: Trustee Davis, yes; Trustee Garrison, yes; Trustee Thornton, yes; Trustee Ressel, yes; Trustee Winston, yes; Trustee Grassham, yes. It carried unanimously.

Dr. Payne led the discussion regarding Policy GAP 1201 Free Speech. We have been silent on a policy of free speech and assembly of outside entities. Some colleges have been visited by organizations that were presenting materials that the colleges felt were extremely graphic and inappropriate. When asked to leave, suit was brought against the colleges and the plaintiffs won. This policy will protect us. Trustee Ressel asked that we have written verification from Mickes stating that this is the best option for the college. Motion was made by Trustee Davis and seconded by Trustee Thornton to adopt as presented. Motion was passed unanimously.

Following discussion by the trustees and with the recommendation by the president, unanimous approval was given on a motion by Trustee Thornton and second by Trustee Davis on the following personnel action:

Charlotte Eubank reported the college’s revenue and expenses as of November 30, 2012. The college is 42% into the fiscal year and has recognized 66% of budgeted revenue. Increased revenues are due to the increase in enrollment and the beginning of Spring registration. Other operating revenue is up due to the Cape Girardeau Partnership for Higher Education revenue that was not budgeted. The college is on target for expenses at 41% of budget being spent.

The November 2012 financial report was unanimously approved on a motion by Trustee Ressel and a second by Trustee Thornton.

Dr. Stephenson reviewed the annual report that showed financial strength, increased partnerships and continued innovations.

Dr. Payne discussed the fire training program. We have 25 participants that include not only TRCC students but also individuals from area fire and rescue departments. We are the premiere state-wide provider partnering with LETS (Local emergency Training Specialists).

Dr. Stephenson discussed the work of the St. Louis FBI Citizens academy that was held in Poplar Bluff. There were 160 children fingerprinted.
Dr. Stephenson announced that State Representative Steve Cookson was honored with Three Rivers’ 4th Annual Legislative Advocacy Award.

Dr. Stephenson reviewed the Freshman legislator tour, legislative round table and state senators’ visits. The Legislative tour brought 80 freshman legislators to Three Rivers. Five students and their stories of living better lives due to education at Three Rivers were presented during the tour. Other topics of discussion were equity funding and investing in Missouri’s community colleges and Three Rivers. To date 23 of the 34 state senators have visited the campus this year.

Dr. Stephenson reported that the Sikeston President’s Advisory Committee meeting was a success. There were three superintendents from the Sikeston area in attendance. We have scheduled Saturday classes for the spring semester in an effort to meet the growing demand for our courses and programs.

Dr. Payne reported that the Employee Christmas Breakfast was a success. The employees collected snacks for the backpack program as the community involvement project.

Dr. Payne discussed the change to the DECA Merchants showcase and reviewed the partnership between the Chamber of Commerce and the college to continue this event. Due to the increase in competition, the Chamber is participating to revitalize this event. It will now be a one-day event, held in April in the Bess Activity Center.

Dr. Totty reported that the Counselors conference held at Three Rivers for 55 counselors from 30 schools was a success. Dr. Stephenson and Dr. Payne presented their Leadership Skills program.

Dr. Payne gave an update on the Christmas Miracles gala held to raise funds for scholarships, music and theatre programs. This is the beginning of a Holiday tradition and will be presented every year.

Dr. Payne also reminded the Board about the new CD from Dr. Stephenson, The Gift 2. Proceeds will fund student scholarships.

Dr. Payne reviewed the upcoming Patrons of the Art events on Celtic Nights, February 28 and Hansel & Gretel on March 2. Each performance will be held at the Tinnin Center.

Dr. Stephenson announced that we are the nation’s 7th fastest growing Community College in our division according to AACC’s Community College Week publication. We are also ranked as one of the 10 safest campuses among Missouri’s universities and colleges for the second year in a row. Both of these designations
provide the college with a clear advantage in recruiting and promotion.

Greg Bricker with George K. Baum & Co presented an update on the capital improvement bond issue. He reviewed the three-step process with this specific bond issue being the second step. We received an A+ rating from Standard and Poors. Individuals who have made donations were contacted last week for pre-purchase commitments. On December 17th the bond went to market. All have been sold except 175K which has been assumed by George K. Baum to continue to sell. The closing for the issue is December 27, 2012 and the interest rate is 3.41%. The Building Corporation Board met prior to the trustees’ meeting and approved the resolution.

Charlotte Eubank presented a handout outlining the cash flow for debt services based on the current donations and assuming the third step (2013 bond issue) is approved.

Chairman Winston commented on his disappointment in the donation stream thus far. The Eastern campus will generate revenue due to increased enrollment but Mr. Winston stated that it will take some time before we see the increase. He indicated that we should have a stronger indication concerning donation numbers prior to making the decision in March to continue with the third phase. He is concerned about assuming the risk of $12.7 million in debt without the donations to provide return on the investment to assist the college with payment for the debt service. The understanding of the Board was that there would be matching donations for the current issue in order to cover the debt service and, to date, this has not happened. He recommends approval of the resolution but felt it necessary to express his concerns regarding the potential risk to the college.

Alan Brooks from the Endowment Trust Board reiterated the activity that the Trust had engaged in to generate the donations. The current business and economic environment has made it difficult to secure the donations. He is confident that the Trust will meet the goals that they have set forth.

Trustee Garrison asked if this issue included the Kennett project and if there was interest. Chairman Winston responded that this
issue was just for Poplar Bluff classroom and the Eastern Campus.

A motion was made to accept the resolution by Chairman Winston and seconded by Trustee Garrison. The board was polled and the unanimous vote was as follows: Trustee Thornton, yes; Trustee Davis, yes; Trustee Ressel, yes; Chairman Winston, yes; Trustee Garrison, yes; Trustee Grassham, yes.

Dr. Payne presented the agreement with Invensys (West Plains corporation) that has been under negotiations since February 2012.

Mark Grimm reviewed the program and informed the Board that it was much like the agreement that the college had previously negotiated with Noranda and Orgill for job training. The program incorporates incentives for job creation and retention. The funding is generated from a portion of the withholding taxes and redirects it back to the company for training.

Trustee Ressel made the motion to approve the resolution and it was seconded by Trustee Grassham. The board was polled and the vote was as follows: Trustee Thornton, yes; Trustee Davis, yes; Trustee Ressel, yes; Chairman Winston, yes; Trustee Garrison, yes; Trustee Grassham, yes.

Dr. Payne explained that, according to state statute, the Board must adopt a conflict of interest policy every two years. There have been no changes to the existing policy.

Motion to adopt was made by Trustee Garrison and seconded by Trustee Davis. The board was polled and the vote was as follows: Trustee Thornton, yes; Trustee Davis, yes; Trustee Ressel, yes; Chairman Winston, yes; Trustee Garrison, yes; Trustee Grassham, yes.

This item was tabled at the November 7, 2012 meeting by Trustee Thornton. Trustee Thornton made the motion to remove the item from the table and reopen for discussion.

This policy has been updated to clarify reasons for dismissal of *At Will* employees. Trustee Garrison asked for clarification if the employee must be terminated if the grounds are met. Dr. Stephenson explained that the grounds are enumerated but do not necessarily mean that termination will result depending on the investigation. He also noted that the policy uses the term “may” to give the college options in dealing with personnel actions.

Trustee Ressel made the motion to adopt with a second by Trustee Thornton. The board was polled and the vote was as follows: Trustee Thornton, yes; Trustee Davis, yes; Trustee Ressel, yes; Chairman Winston, yes; Trustee Garrison, yes; Trustee Grassham, yes.
Steve Austin and Jay Decker with Kraft, Miles & Tatum, LLC presented the FY2012 Audit. Steve reviewed the report provided to the Board. There were no deficiencies found in any area. An unqualified opinion was issued on compliance. Three Rivers Community College was determined to be a low-risk auditee.

Chairman Winston thanked Dr. Stephenson for his leadership in strengthening the financial position of the college and thanked Charlotte Eubank for the internal control and compliance.

The Audit was unanimously adopted as presented on a motion by Trustee Thornton and second by Trustee Garrison.

Dr. Stephenson presented the proposed comparative salary adjustment for full-time faculty, the credit-hour compensation increase for adjunct faculty and the COLA for full-time Professional/Administrative Staff. He recommended a three-tier increase:

- Faculty: $2,000 annually
- Adjunct Faculty: $25 per credit hour
- Professional/Admin 2.0%

Dr. Stephenson discussed the fact that state revenues were currently outpacing revenue projections and indicated that early signs revealed a strong inclination toward increased revenue. Additionally, the agreed upon equity funding formula within the community college sector will yield additional dollars for Three Rivers over the next several years as we continue to grow. He also mentioned that the administration had no plans to propose a tuition increase for FY14 to cover these increased costs.

Discussion followed to include comments from Trustee Ressel that a 2.5% increase for the Profession/Admin staff was more realistic based on the current CPI. Trustee Garrison agreed that we need to invest in our employees. Trustee Thornton supported the 2.5% increase instead of the 2.0%.

Trustee Garrison made the motion to proceed with the plan as presented by the administration with a second by Trustee Davis. The board was polled and the vote was as follows: Trustee Thornton, no; Trustee Davis, yes; Trustee Ressel, yes; Chairman Winston, yes; Trustee Garrison, yes; Trustee Grassham, yes.

Janine Heath reported that there have been two bids received for the Secondary Athletic Insurance. Our existing broker returned a bid for $68,004 with a $5,000 deductible. Mitchell Insurance of Sikeston returned a bid for $60,500 with a $1,000 deductible. The comparison between the two policies has not been completed but at this time it appears that the coverage would be the same.

Recommendation that if the comparison shows the coverage the
same that we proceed with the lower bid. The Board will be informed of the outcome of the comparison when it is completed.

Motion was made to accept the recommendation and to approve the lower bid as long as the coverage is comparable by Chairman Winston and seconded by Trustee Ressel. The motion was unanimously approved.

Dr. Stephenson presented change of dates for the board meeting due to other commitments. Trustee Thornton made the motion to accept the date changes, Trustee Garrison seconded the motion. The motion was unanimously approved.

- January 16, 2013 to January 23, 2013
- February 20, 2013 to February 27, 2013
- April 17, 2013 to April 10, 2013

Dr. Stephenson presented the personnel changes. Motion to accept was made by Trustee Ressel and seconded by Trustee Davis. The motion was unanimously approved.

A motion was made by Trustee Garrison to enter into executive session to discuss personnel, property and legal matters, permissible under guidelines of Missouri Rev. Statute Section 710.021.1 Legal – legal actions, causes of action or litigation involving a public governmental body and confidential and privileged communications between a public governmental body and its attorney; Section 610.021.2 – Real Estate – Leasing, purchase or sale of real estate by a public governmental body where public knowledge of the transaction might adversely affect the legal consideration therefore; Section 610.021.3 – Personnel – Hiring, firing, disciplining or promoting of particular employees by a public governmental body when personal information about the employee is discussed or recorded.
